

## Merry Christmas from Greg and Karen Schulz

This year, Greg published his second book 'The Green and Virtual Data Center' in January. His company, StorageIO is growing. In June, we celebrated our 25th anniversary. Greg did a keynote talk in the new Cowboy Football Stadium in August, which included a tour of the locker room. Karen continues working on her writing. She is combining interests in photography, wildlife and native plants winning additional honors.

Greg caught some big fish

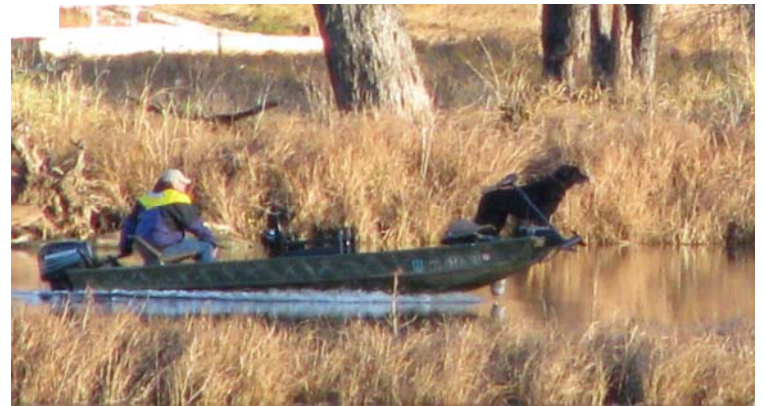

Dallas Cowboy Stadium - Cowboys Locker Room

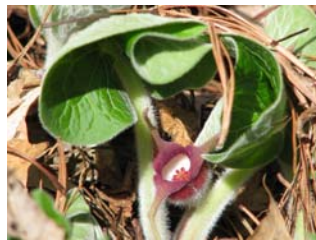

Karen kayaking on the river

And some little fish

Greg and his river "Guide" Babe out fishing

A couple of Karen's photographs won prizes in the 2009 Wild Ones Photo Contest

Leo playing in the leaves

Karen catching some March sun in Florida
